

Listening Part 2 · Image prompts for Gemini

IELTS AI by nextED · from IELTS_Listening_Question_Bank_ElevenLabs_v4.pdf · 8 sets, 10 images

What is in this file

- One cover illustration for each of the 8 Part 2 sets (shown on the set card and at the top of the player). All 8 use the same style block, so they look like one family.
- Two exam images for P2-PM (the only Part 2 set that needs a picture to answer): the reserve map (Q1–10) and the visitor-centre floor plan (Q11–20). They are black-and-white like a real IELTS paper, with letters placed exactly as the audio describes.
- Every prompt says what must NOT appear in the picture, so the image never gives away an answer.

How to use

- Paste the prompt box into Gemini exactly as it is (one image per chat works best).
- Save each image with the file name shown and send them to us. We add them to the app.
- Covers: if Gemini adds any text, numbers or signs, reply "remove all text and numbers" and regenerate.
- Maps: Gemini often misplaces or garbles letters. Check every letter against the answer check under the prompt. If one is wrong, reply "move letter X to ..." or fix it in any image editor.
